Professional Summary: With more than 17 years of experience as a SAP Integration Consultant, I specialize in systems integration, with extensive knowledge in SAP PI (Process Integration) / PO (Process Orchestration), SAP CPI (SAP Cloud Integration), BTP (SAP Business Technology Platform), Integration Suite. Experience in complete implementations in S/4 HANA. SAP Integration Developer Certified (C_CPI_2404)

PROFESSIONAL EXPERIENCE

LFJ DEVELOPERS

29 Aug 2023 - Present

CEO

Main Responsibilities:

- Administer programs for selection of sites, construction of buildings, or provision of equipment or supplies.
- Analyze operations to evaluate performance of a company or its staff in meeting objectives or to determine areas of potential cost reduction, program improvement, or policy change.
- Confer with board members, organization officials, or staff members to discuss issues, coordinate activities, or resolve problems.
- Coordinate the development or implementation of budgetary control systems, recordkeeping systems, or other administrative control processes.
- Direct or conduct studies or research on issues affecting areas of responsibility.
- Direct or coordinate activities of businesses involved with buying or selling investment products or financial services.
- Direct, plan, or implement policies, objectives, or activities of organizations or businesses to ensure continuing operations, to maximize returns on investments, or to increase productivity.
- Negotiate or approve contracts or agreements with suppliers, distributors, federal or state agencies, or other organizational entities.
- Serve as liaisons between organizations, shareholders, and outside organizations.

Software Developer

Main Responsibilities:

- Analyze information to determine, recommend, and plan installation of a new system or modification of an existing system.
- Develop or direct software system testing or validation procedures, programming, or documentation.
- Analyze user needs and software requirements to determine feasibility of design within time and cost constraints.
- Confer with systems analysts, engineers, programmers and others to design systems and to obtain information on project limitations and capabilities, performance requirements and interfaces.
- Modify existing software to correct errors, adapt it to new hardware, or upgrade interfaces and improve performance.

Key clients assisted through my enterprise:

GRAVITY IT RESOURCES- *American company specializing in hiring people in the IT sector*
14 Jul 2025 – Current

Senior Functional Consultant – SAP PI (Process Integration) / Po (Process Orchestration) / Cpi (Sap Cloud Integration)

- Integration EDI (Electronic Data Interchange) support in the customer environment
- Integration SAP PI (Process Integration) PO (Process Orchestration) support in the customer environment

REPLY- *Italian consultancy, with worldwide operations, specialized in designing and implementing innovative solutions in the Digital Services, Technology and Consulting fields.*
05 Jan 2025 – Current

Senior Functional Consultant – SAP PI (Process Integration) / Po (Process Orchestration) / Cpi (Sap Cloud Integration)

- S4 Hana implementation
- Integration support in the customer environment
- Development of new integrations in the SAP integration Suite CPI (SAP Cloud Integration) environment
- BTP (SAP Business Technology Platform) Configuration to new SAP CPI (Sap Cloud Integration)

GRUPO META - *Brazilian consultancy with operations in over 20 countries, specializing in technology and digital transformation solutions. SAP, automation, software, and AI for companies undergoing digital evolution.* 11 Sep 2023 – Current

Senior Functional Consultant – SAP PI (Process Integration) / PO (Process Orchestration) / Cpi (Sap Cloud Integration)

- S4 Hana implementation
- Integration support in the customer environment
- Development of new integrations in the SAP integration Suite CPI (Sap Cloud Integration) environment

Main Projects/ Achievements

- **Magnera Corporation** - *serves more than 1,000 customers worldwide, offering a wide range of material solutions, including components for hygiene products, protective apparel, specialty construction products, and products for the food and beverage industry*
 - Development of the DRC Invoice solution for Mexico. The integration was successfully developed and delivered to the test environment, with the production environment scheduled for February 2026. Process automation makes it faster and less prone to errors
- **VCNA Votorantin Canada** - *North American operations of global building materials and sustainability solutions provider, Votorantim Cimentos.*
Development of an integration for oil analysis, with email notifications. Successfully delivered, with all API communications working. With this process it is possible to check for errors in advance, taking action beforehand. This means the company gains around 30% by being able to act on prevention and not just the consequences.
- **TBC Corporation** - *Is an American corporation and marketer of automotive replacement tires. leader of innovative and value-creating business solutions in the mobility industry for nearly 70 years.*

EDI support, active monitoring of the environment so that all integrations work actively without interruptions in the production environment. With active monitoring, we can act at the first moment of an error, allowing us to act before there are technical stops, ensuring that the company does not suffer losses.

Company Description: American Multinational professional services company originating in the United States and headquartered in Dublin, Ireland, that specializes in information technology services and management consulting. It was founded in 1989. A Fortune Global 500 company, it reported revenues of \$64.9 billion in 2024

Integration Manager

Main Responsibilities:

- Leadership of the technical integration team in national and international projects leading development teams from Brazil and India
- Provided internal training on SAP PI (Process Integration) and GRC NFe integration
- Development of integrations in PI (Process Integration), PO (Process Orchestration), CPI (SAP Cloud Integration) and Integration Suite in several national and international projects.
- Configuration of adapters such as Soap, Rest, Jdbc, Mail, XI (SAP Exchange Infrastructure), Idoc, RFC
- Configuration of integration mapping using graphical mapping, java, xslt and groovy
- Development of banking interfaces, EDI.
- Responsible for integration in SAP and S4 Hana implementation projects

Main Projects/ Achievements

- **BUNGE** - Brazilian company is a world leader in agribusiness solutions, with talent and technology to promote the sector's advancement.
Development of integrations for communication with Viterra. With the purchase of Viterra by Bunge, the environments were integrated, allowing the company to gain performance by integrating the environments of both companies, transforming them into a communication
- **BRIDGESTONE**. - Is a Japanese multinational manufacturing company and the world's largest tire manufacturer.
Development of various integrations via CPI with the EWM, MM, FI, SD modules. Integrations delivered in July 2023 and operating in hypercare support until October 2023. with the implementation of s4 there was simplification and centralization for management and administration and performance improvement of around 60% as it is a cloud solution
- **AB_INBEV** - Anheuser-Busch InBev SA/NV, known as AB InBev, is a Belgian multinational drink and brewing company based in Leuven, Belgium. It is the largest brewer in the world, and in 2023, was ranked 72nd in the Forbes Global 2000.
As the integration team leader, I was responsible for delivering all interfaces for the logistics module, also acting as backup for the project's overall integration leadership. The interfaces were go-live and delivered. with the implementation of s4 there was simplification and centralization for management and administration and performance improvement of around 40% for the logistic process
- **HAMBURG SÜD** - Hamburg Süd was a German shipping company, acquired by Maersk in 2017, which offered container transport and integrated logistics services, including operations in Brazil under the Hamburg Süd and Aliança brands.
Development of ATR, PTP and OTC integrations, integration of the S4hana environment with legacy environments using SAP PI PO. the Agile methodology was used, making a project complete in about 50% of the time it would take
- **MERCK / MSD** - Merck & Co., Inc. is an American multinational pharmaceutical company headquartered in Rahway, New Jersey. The company does business as Merck Sharp & Dohme or MSD outside the United States and Canada. The company is ranked fourth on the list of largest biomedical companies by revenue.
Development of invoice integration for Chile, Argentina, and Colombia. Live implementation, including in-person office monitoring. With the automation of the invoice process, it has become standardized across countries and thus also with less chance of errors.
- **ACHE** - Aché is a Brazilian pharmaceutical laboratory that is among the five largest pharmaceutical companies in Brazil, according to the Pharmacy Purchase Price (PPP) ranking, and we serve more than 157 therapeutic classes in 30 medical specialties
Integrated Finance, Logistics, Sales, and Materials interfaces with the S4 Hana environment. Performed GoLive with in-person monitoring at the logistics center. with the implementation of s4 there was simplification and centralization for management and administration and performance improvement of around 60% as it is a cloud solution

CEO

Main Responsibilities

- Administer programs for selection of sites, construction of buildings, or provision of equipment or supplies.
Analyze operations to evaluate performance of a company or its staff in meeting objectives or to determine areas of potential cost reduction, program improvement, or policy change.
