Additional information

Dear Sirs:

I have solid experience in microbiological and physical chemical analysis, I worked in a pharmaceutical industry and inspection company, where I learned a lot.

I'm from Brazil, actually I'm living in US with my wife to study English and learn much more in this amazing country

I have experience in qualitative and quantitative analysis, finished product, packaging material, equipment calibration and verification, raw material and packaging sampling, water sampling, SOP elaboration and review, stability analysis and study, GMP, product inspection, among many other qualifications. I have my own vehicle for locomotion, active CRQ and full availability for travel and change of state.
