WILDENER RISSATO

PROFILE

Experienced truck driver and equipment operator with more than 15 years of experience working with transportation, agricultural machinery, and heavy equipment. Throughout my career, I have operated trucks, sugarcane harvesters, and farm equipment while supporting harvesting operations and material transportation.

I am used to long working hours, outdoor environments, and operating equipment safely and efficiently. My experience includes machine inspections, preventive maintenance, loading operations, and solving mechanical issues when needed. I work well with teams, adapt easily to different conditions, and take pride in keeping equipment and operations running smoothly.

PROFESSIONAL EXPERIENCE

Truck Driver - JSL Transport

2018 - 2024

Worked with flatbed trucks transporting machinery, equipment, and different types of cargo throughout Brazil and Argentina. The position required long-distance driving, route planning, attention to safety, and daily vehicle inspections.

Although focused on transportation, the job also involved equipment handling, securing loads, and performing preventive maintenance to keep vehicles operating properly.

- Operated flatbed trucks transporting machinery and equipment.
- Transported loads throughout Brazil and Argentina.
- Planned routes and maintained delivery schedules.
- Performed daily vehicle inspections and safety checks.
- Secured cargo and monitored load conditions during transportation.
- Performed preventive maintenance and reported mechanical issues.
- Maintained delivery records and transportation documentation.

Machine Operator - São João Power Plant

2012 - 2018

Worked directly in sugarcane operations operating harvesters and supporting transportation activities during harvest seasons. The work required long hours in the field, attention to equipment performance, and coordination with transportation and production teams.

In addition to operating machinery, I monitored equipment conditions, performed basic maintenance, and assisted with logistics to keep harvesting activities moving efficiently.

- Operated sugarcane harvesters during harvesting operations.
- Loaded and transferred harvested material for transportation.
- Monitored machine performance during daily operations.
- Performed basic maintenance and equipment inspections.
- Reported mechanical issues and equipment failures.
- Assisted with harvest logistics and field operations.
- Followed safety procedures and company standards.

Truck Driver - BB Transport

2008 - 2012

Worked transporting cargo on regional and long-distance routes, maintaining delivery schedules and ensuring cargo arrived safely and in good condition.

The position also involved vehicle inspections, preventive maintenance, and maintaining accurate transportation records.

- Transported goods safely and on time.
- Performed daily inspections and preventive maintenance.
- Secured cargo and monitored transportation conditions.
- Maintained delivery documentation and records.
- Worked long hours and adapted to different road conditions.
- Followed transportation and safety procedures
