MAYKOW LOUZANO DE MACEDO

Curitiba, Paraná, Brazil | +55 (41) 99978-4137 | louzanomaykow25@gmail.com

PROFESSIONAL SUMMARY

Manufacturing and production professional with experience in tire production, quality control, sales consulting, furniture assembly, and installation and maintenance work. Familiar with production equipment, basic quality procedures, SAP, and spreadsheets. Team-oriented, adaptable, and available to relocate. Seeking opportunities with U.S. employers open to sponsoring work authorization.

PROFESSIONAL EXPERIENCE

Production Operator | Sumitomo Rubber do Brasil LTDA. — October 21, 2026–Present

- Participate in tire manufacturing and assembly operations as part of a production team.
- Work collaboratively across production stages involving component preparation, presses, and vulcanization equipment.
- Support production activities involving conveyor systems, tire inspection equipment, and rubber cutting and application machinery.
- Use pneumatic tools, control panels, and measurement equipment as required by assigned tasks.
- Contribute to production workflow, product quality, and compliance with established operating procedures.

Gutter Installation and Maintenance | Self-Employed — June 2026–October 2026

- Installed and maintained gutter systems for residential and other customer projects.
- Used hand tools and measuring equipment to support proper installation and finishing.
- Followed task requirements and safe work practices while completing assigned jobs.

Sales Consultant | Ademicon — February 2026–June 2026

- Worked in a sales consulting role involving customer communication.
- Used customer-facing communication and professional service skills in a sales environment.

Quality Control Assistant | Vuelo Pharma — December 2024–August 2025

- Supported quality control activities and routine checks in a pharmaceutical work environment.
- Followed established procedures and helped maintain quality-related records as required.

Furniture Assembler | Self-Employed — 2023–2024

- Assembled furniture using hand tools, measuring tools, and installation hardware.
- Followed assembly instructions and checked alignment and stability during installation.
